Lou-please forward to Boxley

7/14/68

Dear Bill,

Just got home and haven't time to check the enclosed. I believe it is all of the official documents I have on the Minutemen. I have sent Allan Dale copies. He has a little more he can give you if you haven't spoken to him recently. He can tell you of Shand's disappearance, what he told Allan before he disappeared, what the wife said, and a lot of other matters.

If you have no knowledge of the pistolleros, Allan can tell you of them also, and their possible importance in Lyndon Johnson's political life. They may, in fact, have made it possible for him to become President.

I'll be more preoccupied than usual for the coming week. However, if there is anything else you know of in the Archives, tell me and I'll get it for you.

Please allow no public use of the attached. I plan to use some of it soon.

Anything else I can do? My newspapers clippings on these boys are scant.

Sincerely,

Jarold Weisberg
